

Nichols Arboretum Walking Trail Guide

INCREASING WELLNESS & REDUCING STRESS

Trail 2: Riverfront Trail • Medium to Difficult

Riverfront Trail Overview

This trail begins in the peony garden, continues along a ridge overlooking the river and down a stairway to the Riverfront landing at the Huron River. The trail then travels gradually back uphill, pausing in the Appalachian plant collection of Heathdale. There is a steep walk out Heathdale before rejoining the main trail back to the Washington Heights entrance.
