

To apply for the Winifred B. Chase Fellowship

The purpose of this fellowship is to aid students at the University of Michigan (any campus) in research in systematic botany, plant geography, and other phases of botany requiring field study or for the accumulation of plant materials for garden, herbarium, or laboratory investigations.

*To apply for this fellowship*, you must submit a description of your proposed study (three-page maximum), a budget, and a copy of your resume with names of at least three references.

*Award range:* \$500 - \$2,000.

*Email application to Dr. David. C. Michener:* michener@umich.edu
